

Alex Muster

Architect · Azure · Banking

Well-go

together with the teams
who build and run them.

Kantonalbank I co-developed the cloud strategy and sourcing model, advised the cloud value stream on solutions from the Azure service catalogue and designed the architecture for operational resilience, cloud backup and infrastructure lifecycle management. At Globex Consulting I designed Azure target architectures and cloud security services and took part in a global migration of 1,000+ servers across 50+ countries to Azure. Native German speaker, fluent in English.

MSc Business Information Technology	09/2017	07/2019

Experience

2023 – 2026	ICT Architect Beispiel Kantonalbank (BKB), Zürich 12/2023 – 02/2026 Architect in the bank's Architecture & Security unit: standards, roadmaps and cloud recommendations for projects and CIO boards. – Worked with portfolio and project management on migration plans and the cloud target operating model; SAFE – Advised the cloud value stream: architecture compliance and solution proposals based on the Microsoft Azure service catalogue – Architecture for operational resilience, cloud backup and IT infrastructure lifecycle management – Cross-project architecture standards and roadmaps aligned with the ICT strategy; reviewed projects for architecture relevance and compliance – Extended IT governance with the DevOps teams (rules for frameworks and programming languages) to reduce technical debt in the migration to Azure
2021 – 2023	Consultant · Sub-project Lead, Cloud Architecture Globex Consulting AG, Zürich 07/2021 – 11/2023 Advised clients in several industries on cloud transformation and delivered it, with a focus on cloud architecture, cybersecurity and project management. – Designed Azure target architectures with business and IT stakeholders – Global cloud transformation: migrated 1,000+ servers across 50+ countries to Azure (lift & shift) – Designed and implemented cloud security services (WAF, load balancer); connected SIEM and monitoring tools globally – Planned the phased migration from Active Directory to Entra ID; integrated Azure services into operating models incl. RACI – Led a project team of up to 12 incl. schedule and budget responsibility; deputy to the delivery lead
2019 – 2021	Consultant; Senior Consultant from 01.2021 Initech Solutions AG, Zürich & Bern 10/2019 – 02/2021 Consulting in cloud and integration projects for the public sector and a health insurer. Team lead for IT architecture, engineering and API management in a federal office's IT transformation: API management, IAM and release planning 10/2019 – 10/2020 Azure cloud integration for a major health insurer: coordinated stakeholders and developers on the new cloud integration strategy (Azure landing zone approach); architecture and proof of concept to integrate an on-prem Oracle DB into Dynamics 365 (Azure Data Factory, Azure SQL) 11/2020 – 02/2021 – Technologies: Azure, API management, IAM, Docker, Java
2017 – 2019	Junior Software Engineer (Master@Helix) · Technical Sales Support Helix Technologies Schweiz AG, Zürich & New York 10/2017 – 10/2019 – Set up Helix Cloud Private on-premise in Helix's data centre (VMs, Kubernetes, Docker) – Proof of concept for a secure access management solution (APIs, OAuth 2.0)
2013 – 2015	Software Developer SAP/ERP (alongside studies) Example IT Services International, Zürich 10/2013 – 04/2015
2012 – 2013	Software Developer (Internship)

Education MSc Business Information Technology Beispiel School of Management and Law, Zürich 09/2017 – 07/2019 Master's thesis at Helix Research (text recognition, machine learning); exchange semester at Hudson College, New York (08.2018–12.2018)
BSc Business Information Technology Beispiel School of Management and Law, Winterthur 09/2013 – 07/2017 Bachelor's thesis in enterprise architecture (TOGAF, ArchiMate); exchange semester at Han River University, Seoul (02.2016–06.2016)
Swiss Federal VET Diploma in Informatics and Federal Vocational Baccalaureate (commercial) Kantonsschule Beispiel, Zürich 08/2009 – 08/2013

Languages

Articulate in business talks and in social settings		Spoken in everyday life	
English	Fluent	French	Basic
Very strong business and above all technical vocabulary; less so in literature			
Korean	Basic		

Further skills

Cloud platform	Microsoft Azure (IaaS, PaaS), Azure landing zones, Hybrid cloud (on-prem and Azure), Azure Migrate, Site Recovery, Backup, Terraform (IaC), Kubernetes / Docker, Linux (Ubuntu, RHEL)
Network, identity & security	VNet, Azure Firewall, WAF, Private Link, ExpressRoute, Entra ID / IAM, SIEM & monitoring, Defender for Cloud / Sentinel, OAuth 2.0, API security
Architecture & governance	Enterprise architecture (TOGAF, ArchiMate), Architecture standards and roadmaps, Cloud and DevOps governance,

Beispielbank Karten AG
Recruiting
Beispielweg 35
8152 Beispielstadt

Zürich, 24 September 2026

Application: Senior Cloud Architect
80-100% (job reference BB-7710)

Dear Recruiting Team

A card business needs a cloud platform that is fast for product teams and stays under firm control. At Beispiel Kantonalbank I worked on both sides of this balance: architecture standards and governance rules agreed with the DevOps teams, and architecture for operational resilience and cloud backup. I would like to bring this experience to your new Cloud Center of Excellence.

What draws me to the role is the chance to build a cloud foundation from the start: a new team, a hybrid platform blueprint in which network, identity and security are designed in from day one, and a governance framework shaped together with security specialists and engineers.

What I bring:

- Azure architecture in production: at Globex Consulting I designed Azure target architectures and cloud security services (WAF, load balancer), connected SIEM and monitoring tools globally and planned the move from Active Directory to Entra ID. I also took part in a global migration of more than 1,000 servers to Azure.
- Platform governance in a bank: at Beispiel Kantonalbank I advised the cloud value stream on solutions from the Azure service catalogue, reviewed projects against architecture standards and analysed security components to assess solution architectures.
- Landing zones and integration: at initech I coordinated stakeholders and developers on a health insurer's cloud integration strategy based on an Azure landing zone, and designed the integration of an on-prem Oracle database into Dynamics 365, incl. a proof of concept.
- Hands-on depth: Kubernetes and Docker at Helix and initech, Helix Cloud Private set up on-premise from virtual machines to containers, and the Azure Solutions Architect certification (AZ-305).

I work in a structured, reliable way and explain trade-offs clearly to engineers and decision makers.

I would welcome a conversation about how I can help shape your platform blueprint and cloud governance framework.

Kind regards
